SUPPLEMENTAL INFORMATION

Project Name: Proctors Microgrid

1. Identify the name, telephone and District # of the State Senator(s) representing your jurisdiction:

Name:		**Senate District #:**
George Amedore	518-455-2350	46th

2. Identify the name, telephone number, and District # of the State Representative(s) representing your jurisdiction:

Name:		**Representative District #:**
Angelo Santabarbara	518-455-5197	111th

3. Identify the U.S. Congressman representing your jurisdiction and congressional district number.

Name:		Congressional District #:
Senator Charles Schumer	(631)-753-0978	N/A
Senator Kirsten Gillibrand	(631) 249-2825	N/A
Paul D. Tonko	(518) 374-4547	20th

4. Identify the members of your jurisdiction's governing authority.

Name:	Member District #:
Phillip Morris,	Proctors CEO
Justin Knudsen,	Proctors Grant Writer
Gary McCarthy	Mayor
Councilmember Ed Kosiur,	President
Councilmember John Mootooveren	
Councilmember Leesa L. Perazzo	
Councilmember John M. Polimeni,	Majority Leader
Councilmember Marion Porterfield	
Councilmember Vincent Riggi,	Minority Leader
Karen Zalewski-Wildzunas	

5. Target Area Census Tract(s): N/A

6. Indicate by means of an "x" as to whether the proposed project will involve a community-wide benefit or a target area(s) and enter the zip code of the project. If a target area is involved, enter the name(s) and zip code of the target area(s).

__X__Community-wide (Zip Code: 12305) __Target Area(s)

Name and Zip Code of Target Area: City of Schenectady Service Area

Community-wide projects should use the zip code of the location of city hall. Target-area projects should use the zip code of the target area where the majority of the construction funds will be spent (for each target area). If the target area(s) does not have a name, please provide a brief geographical description of the area such as "western portion of the city."

7. Provide Lat/Long for the Project Location at or near the geographical center:
   Latitude: __73.9396° W_____ Longitude: ___42.8142° N_____

8. How many other projects funded with CDBG-DR funds relate to the project: _X_

9. Does the project relate to any other project GOSR should be aware? ___X___

10. If flood insurance is required, has the entity that will be required to carry it in perpetuity been informed of this requirement: __X__Yes _____No

11. Does the project encompass multiple counties: _____Yes __X___No

12. If the proposed project is a "covered project," please provide a narrative describing the **"Resilience Performance Standards"** to be used in the design/implementation of the project below.

13. If the proposed project is a "covered project," please provide a narrative describing the **"Green Infrastructure Project Activities"** to be used in the design/implementation of the project below. For the purpose of completing this section, green infrastructure is defined as the integration of natural systems and processes, or engineered systems that mimic natural systems and processes, into investments in resilient infrastructure. "Green Infrastructure" takes advantage of the services and natural defenses provided by land and water systems such as wetlands, natural areas, vegetation, sand dunes, and forests, while contributing to the health and quality of life of those in recovering communities.

14. If the proposed project is a "covered project," please provide a narrative describing the **"Transparent and Inclusive Decision Processes"** undertaken in selection of the proposed project. Include accessible public hearings and other processes to advance the engagement of vulnerable populations.

15. If the proposed project is a "covered project," please provide a narrative describing the **"Long Term Efficacy and Fiscal Sustainability"** plans to monitor and evaluate efficacy and sustainability, including how it will reflect changing environmental conditions (such as sea level rise or development patterns) with risk management tools, and/or alternate funding sources, if necessary.
16. If the proposed project is a "covered project," please provide a narrative describing how the project will align with the commitment expressed in the President's Climate Action Plan to "identify and evaluate additional approaches to improve our natural defenses against extreme weather, protect biodiversity, and conserve natural resources in the face of changing climate..."

17. Has an amendment to the Action Plan to include this project been submitted to HUD?
    ____ Yes; __X__ No;

18. What is the status of the amendment request? Provide a narrative describing the status of the amendment request. (Include date of submission, date of approval, any requests for additional information, and current status)

19. Is this project receiving FEMA Public Assistance funding: ____Yes __X__No

20. Is this project receiving FEMA Public Assistance 406 Hazard Mitigation Funds:
____Yes __X__No
Please provide the FEMA Project Worksheet number(s) for this project application:_____
(The FEMA project work sheet number should include the FEMA disaster declaration number in the first four (4) digits and the project worksheet number in the last five (5) digits. A Hurricane Sandy related project with the project worksheet "567" would be entered as "4085-00567)

21. Is this project receiving FEMA Section 404 Hazard Mitigation funds:
____Yes _X___No

22. Is this project receiving any Army Corps of Engineers funding:
____Yes __X__No
If yes, please provide the type of funds applied for and application number:_____

23. Is this project receiving any Environmental Protection Agency funds:
____Yes __X__No
If yes, please provide the type of funds applied for and application number:_____

24. Is this project receiving any Department of Energy funds:
____Yes __X__No
If yes, please provide the type of funds applied for and application number:_____

25. Is this project receiving any Department of Transportation funds:
____Yes __X__No
If yes, please provide the type of funds applied for and application number:_____

26. Is this project receiving any Department of the Interior fund:
____Yes __X__No
If yes, please provide the type of funds applied for and application number:_____

BUDGET/COST SUMMARY FORM

PROJECT NAME:

(A) Costs by Activity	(B) CDBG-DR	(C) Other	(D) Total	(E) Source

PROJECT NAME:	Proctors Microgrid

PROJECT DESCRIPTION.

This project is based on the City of Schenectady Microgrid NY Prize Stage 1 Report. This project will assist in funding an expansion to an existing district energy system (DES) called Marquee Power in a 2 square block area of downtown Schenectady. Proctors, a not-for-profit 501(c)(3) is an art center, theater and community development organization that owns and operates Marquee Power like a co-op.

The proposed microgrid will expand the DES to commercial customers located on the North and South block of 400 State Street and provide resilient electrical services in addition to thermal service by connecting electric service lines from Proctors to the Center City complex via underground conduit that crosses beneath State Street, and to other thermal customers via conduit and rights of way established by existing thermal connections. This will enhance the existing system to revitalize the downtown area, lower construction and maintenance costs for redevelopment, and reduce the cost of energy.

Critical loads supported during an outage include: multiple places of refuge at Proctors and Center City, including a YMCA along with critical facilities that include two emergency relief centers, three commercial kitchens, bank, pharmacy, two hotels and the telecommunications and physical infrastructure to accommodate relief effort coordination on the ground.

Historically significant structures will be impacted, but the MG program does not anticipate any historical preservation issues. No property acquisition is anticipated.

Project Context: This is a standalone project that does not rely on other projects and does not trigger CDBG-DR requirements to any other project.

Beneficiaries/Public Benefit/Target Area: ***City of Schenectady***

Recovery Rationale:

During Hurricane Irene, Tropical Storm Lee, over 24,000 homes in Schenectady County lost power,[1] for an estimated average outage time of three days.[2] Within the downtown district, electricity was out for close to a week, causing significant damage to the local economy.

The proposed microgrid for the Proctors Center and Center City complexes would allow this commercial center to meet standard energy demand on an uninterrupted basis in the event of wider electrical grid failure due to flooding or other disasters.

The Proctors Center and Center City appear to be in a low-flood risk area, though nearby a 100-year flood plain. The Schenectady High School, which has previously been used as an emergency shelter is farther from the Mohawk River, beyond the edge of the low-risk flood zone.[3] The Proctors Center and City Center are approximately 2 miles northwest of the Schenectady High School and 0.6 miles from the Mohawk River.

The Schenectady High School was used as an emergency shelter during the 2011 Mohawk floods caused by Hurricane Irene and Tropical Storm Lee, when the Mohawk River rose up to 28 feet above flood stage. The floods displaced 17 people in Schenectady County.[4] The High School also served as a center for a Salvation Army relief team to provide food and emergency services to those displaced.

A 2011 news article reported that the Schenectady High School does not have emergency generator capabilities.[5] The County reportedly issued a request for bids for a High School Emergency Standby Generator Project in 2014, but it is unclear whether this project was ever completed.[6] In addition, a GOSR report noted that "emergency responders were able to meet the community's needs during Irene and Lee, but often had to make due with imperfect facilities – upgrades are needed."[7]

The microgrid will service up several institutions including the Proctors theatre and YMCA, both of which are red cross certified places of refuge.

Declared disaster(s):

- Mohawk River Flooding (DR 4129)

A project is tied to the storm in multiple ways, including:

Proctors is seeking CDBG-DR funds on behalf of the Schenectady community to construct a community microgrid to help ensure that the community is safe and resilient during a power disruption event. The project is a top to bottom reimaging and reorganization of Schenectady's emergency assets. The project is necessary to the community's long-term recovery and its resiliency in future storm events by providing protection and safety for the cities critical and essential emergency assets including two Red Cross designated places of refuge situated immediately outside the floodplain: Proctors and Center City.

This project directly addresses the impacts of the upstate Mohawk floods (DR 4129). This project responds to the issue of providing critical services by implementing microgrid technology in a strategic area of the city. The microgrid generation assets will be at the Center City and Proctors complex in the heart of downtown Schenectady.

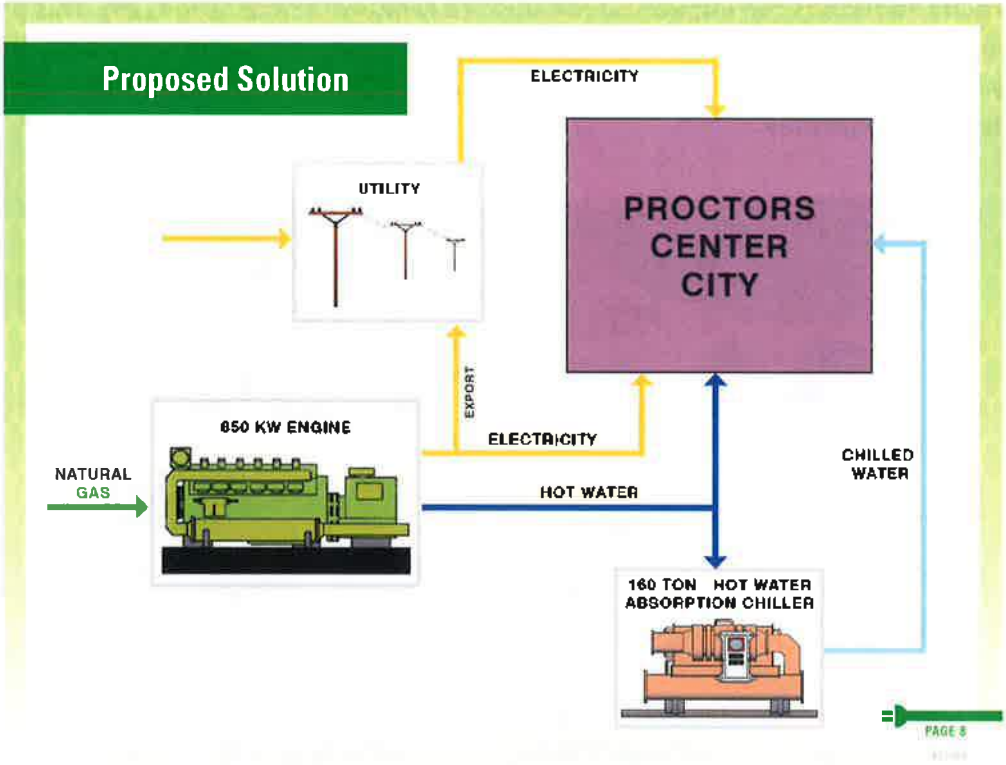

<u>This project addresses an unmet recovery need from the following declared disaster(s):</u>
Hurricane Irene, Tropical Storm Lee and the Mohawk River Flooding (DR 4129)

Description of Construction Involved:

This project proposes to add a new 850 KW natural gas fired turbine combined with a 160-ton hot water absorption chiller to provide cooling, heat and power (CCHP) plant to the Proctors DES. The DES currently provides thermal services to the microgrid facilities. The facilities would be normally connected to the utility distribution system and the microgrid generation would be used to offset grid consumption. During a grid outage, precipitated by a wide scale emergency, the facilities will be connected directly to the microgrid generation which will supply both electrical and thermal needs.

Most of the construction will be performed inside the Proctors and Center City facilities. Two transmission lines will cross state street to connect the Proctors and Center City facilities. An existing easement will allow for utility usage. The bulk of the work should be completed within one construction season.

Responsibility for Operations and Maintenance

The subrecipient, Proctors 501c3 Arts Center and Theatre of Schenectady, Inc, will be responsible for the operations and maintenance of the project

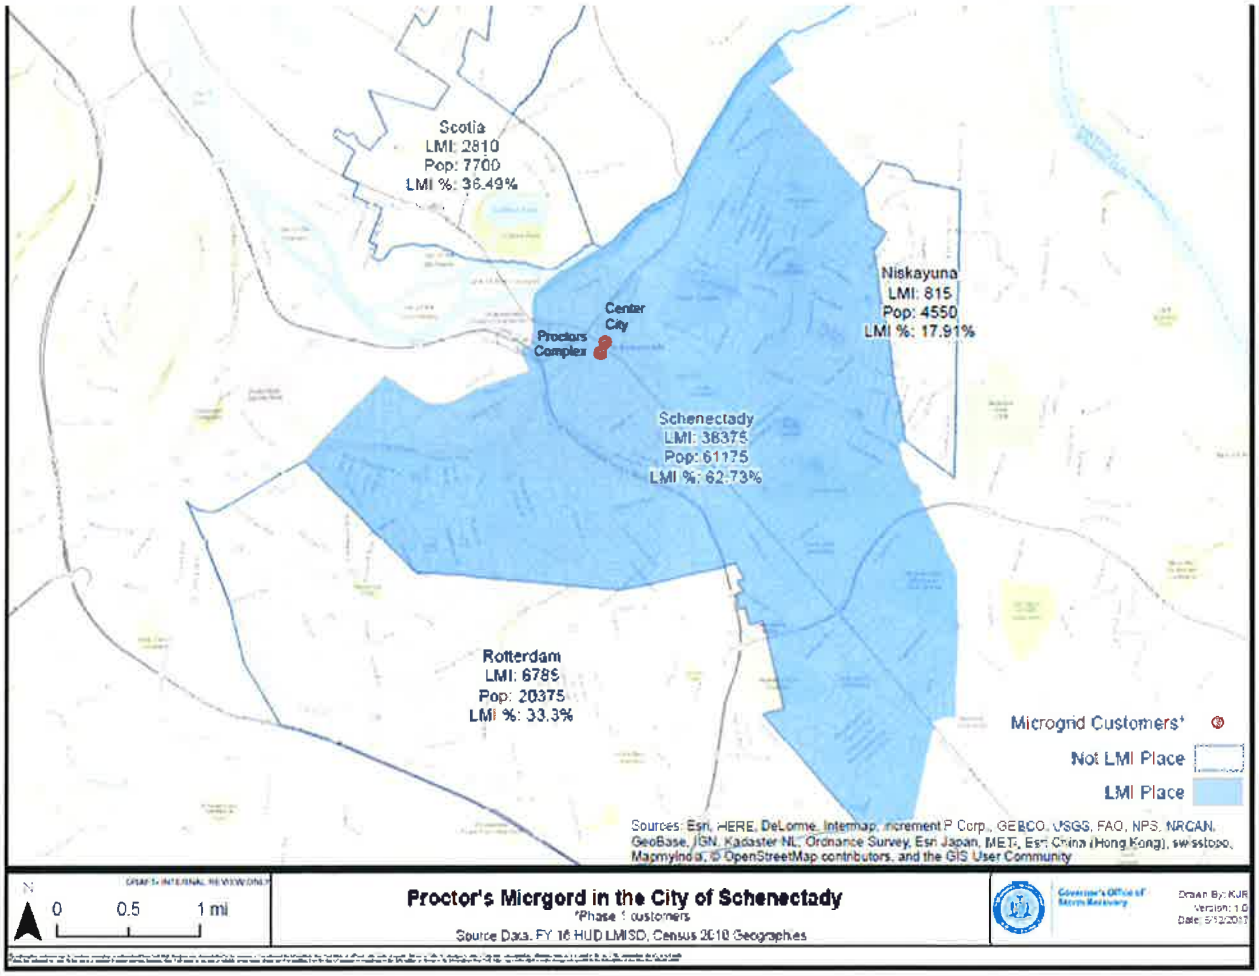

Description of Acquisition Involved: No Property Acquisition

Mitigation Plan: No acquisition of land property is anticipated for the completion of this project. If during the engineering phase, it is determined that additional property is needed, the Village of Greenport and its engineer will comply with the Uniform Relocation and Assistance Act (URA) in acquiring property and/or rights of way.

Mitigation Plan: The Proctors Microgrid will allow key areas in the City of Schenectady to aid in disaster recovery and response. Emergency services and essential city activities will be able to respond and resume normal operations faster, safer and more efficiently.

CDBG-DR Eligibility **17B: Commercial/Industrial: Infrastructure Development-Street, water, parking, rail transport, or other improvements to commercial/industrial sites. 17B also includes the installation of public improvements, such as construction of streets to and through commercial/industrial areas. 17B activities must be carried out by the grantee or by no-profits.**

CDBG-DR National Objective: ***Low-Moderate Income***

ARCHITECT/ENGINEER'S COST ESTIMATE	
Estimated Number of Parcels to be Acquired:	Not Applicable
Anticipated Approvals/Permits to be Acquired:	Not Applicable

PROJECT BUDGET (CONSTRUCTION ONLY)

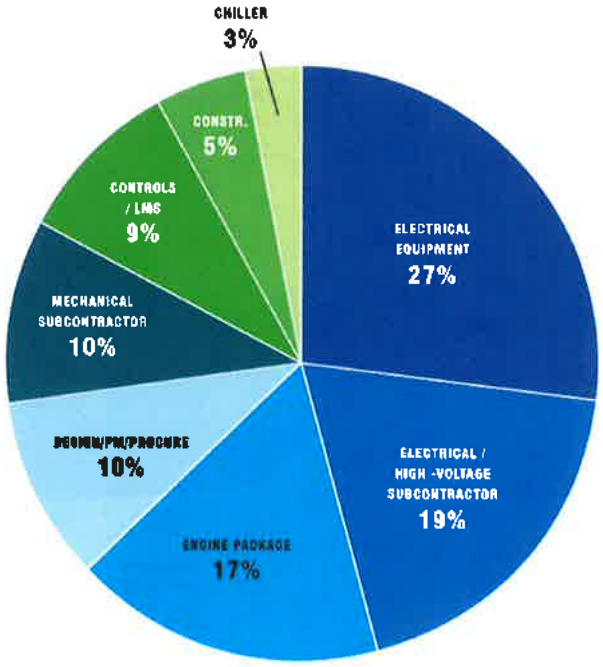

Total: $6,000,000

GOSR will only provide grant funding for construction. The total construction budget is $ 5,825,000.

Project Budget Breakdown
850 KW ENGINE

PROJECT COST	AMOUNT
Design/PM/Equipment Procurement	$ 675,000
Construction	$ 344,056

Applicant/Recipient Disclosure/Update Report

U.S. Department of Housing and Urban Development

OMB Approval No. 2510-0011 (exp. 8/31/2009)

Instructions (See Public Reporting Statement and Privacy Act Statement and detailed instructions on page 2.)

Applicant/Recipient Information **Indicate whether this is an Initial Report ___ or an Update Report ____**

1. Applicant/Recipient Name, Address, and Phone (include area code):	2. Social Security Number or Employer ID Number:
Proctors 501c3 Arts Center and Theatre of Schenectady, Inc. 432 State Street Schenectady, NY 12305 518-382-3884	14-1602083
3. HUD Program Name	**4. Amount of HUD Assistance Requested/Received**
Community Development Block Grant – Disaster Recovery Program	$6,000,000.00

5. State the name and location (street address, City and State) of the project or activity:

Proctors 501c3 Arts Center and Theatre of Schenectady, Inc.432 State Street Schenectady, NY 12305 518-382-3884

Part I Threshold Determinations

1. Are you applying for assistance for a specific project or activity? These terms do not include formula grants, such as public housing operating subsidy or CDBG block grants. (For further information see 24 CFR Sec. 4.3).

___X Yes ___ No

2. Have you received or do you expect to receive assistance within the jurisdiction of the Department (HUD) , involving the project or activity in this application, in excess of $200,000 during this fiscal year (Oct. 1 - Sep. 30)? For further information, see 24 CFR Sec. 4.9

__X_ Yes ___ No.

If you answered "**No**" to either question 1 or 2, **Stop!** You do not need to complete the remainder of this form. ***However***, you must sign the certification at the end of the report.

Part II Other Government Assistance Provided or Requested / Expected Sources and Use of Funds.

Such assistance includes, but is not limited to, any grant, loan, subsidy, guarantee, insurance, payment, credit, or tax benefit.

Department/State/Local Agency Name and Address	Type of Assistance	Amount Requested/Provided	Expected Uses of the Funds

(**Note**: Use Additional pages if necessary.)

Part III Interested Parties. You must disclose:

1. All developers, contractors, or consultants involved in the application for the assistance or in the planning, development, or implementation of the project or activity and
2. Any other person who has a financial interest in the project or activity for which the assistance is sought that exceeds $50,000 or 10 percent of the assistance (whichever is lower).

Alphabetical list of all persons with a reportable financial interest in the project or activity (For individuals, give the last name first)	Social Security No. or Employee ID No.	Type of Participation in Project/Activity	Financial Interest in Project/Activity ($ and %)

(**Note**: Use Additional pages if necessary.)

Certification

Warning: If you knowingly make a false statement on this form, you may be subject to civil or criminal penalties under Section 1001 of Title 18 of the United States Code. In addition, any person who knowingly and materially violates any required disclosures of information, including intentional non-disclosure, is subject to civil money penalty not to exceed $10,000 for each violation. I certify that this information is true and complete.

APPENDIX A

Duplication of Benefits Certification(s)

NY Rising Infrastructure Program
DUPLICATION OF BENEFITS QUESTIONNAIRE

Program Participant: Arts Center and Theatre of Schenectady, Inc (dba Proctors)

Project Name: Proctors Microgrid

Federal regulations require a duplication of benefits (DOB) analysis for projects receiving U.S. Department of Housing and Urban Development (HUD) Community Development Block Grant-Disaster Recovery (CDBG-DR) support to ensure that the Program Participant does not receive more funds for a project than are needed. The Program Participant must report all assistance they have received for a project from such sources as insurance, Small Business Administration (SBA), Federal Emergency Management Agency (FEMA), and other local, State, or Federal programs, and private or nonprofit charitable organizations. Any funds received from these sources for this project must be considered when the amount of the CDBG-DR grant is determined. While inclusion in a long-term capital plan does not constitute a DOB, if a project has been included in the Program Participant's annual budget, it may be considered a DOB. CDBG-DR is a funding source of last resort, and should funds become available for a project in the future such that some or all of the CDBG-DR funds budgeted for the project would constitute a duplication of benefits, those CDBG-DR funds will be disallowed or, if outlaid, must be returned to the Governor's Office of Storm Recovery (GOSR). Please consult with GOSR staff if you have any questions regarding whether a potential DOB exists. Please use the chart below to describe funds the Program Participant has received and/or committed for the project.

FUNDS RECEIVED OR BUDGETED FOR THE PROJECT

SOURCE OF FUNDS	Amount received for the project	Additional funds expected
FEMA	0	0
Other Federal Agencies (Describe)	0	0
State Agencies	0	0
Budgeted Program Participant Funds (Annual Budget)	0	0

Private Insurance	0	0
National Flood Insurance	0	0
Nonprofit Organizations (Describe)	0	0
Other Funds (Describe)	0	0
TOTAL	0	0

Documents Needed:

Along with this form, please provide documents that show the amounts received for the project from each source listed above. Note: All documents, including Program Participant budgets, must be retained and produced for review at the request of GOSR or HUD.

CERTIFICATION:

I certify that the information provided in this questionnaire is true and accurate to the best of my ability. I understand that if this information is not correct, it may affect the amount of any grant I may receive or may lead to the recapture of disbursed funds by GOSR and/or HUD.

Record of Public Comments

Public Notice

New York State CDBG-DR Application Available for Review

The Proctors 501c3 Arts Center and Theatre of Schenectady, Inc. announces that it intends to submit an application for New York State Community Development Block Grant-Disaster Recovery (CDBG-DR) Program funds on or about September 16, 2019 for the following project:

Proctors Microgrid

Activity: The Proctors 501c3 Arts Center and Theatre of Schenectady, Inc is requesting Community Development Block Grant – Disaster Recovery (CDBG-DR) funding to construct a microgrid in downtown Schenectady, serving the Proctors and Center City facilities.

Objective: The project will provide downtown Schenectady with a cluster of resilient facilities with the capacity to maintain electrical service during emergency and extreme weather conditions. These facilities contain multiple services, businesses, disaster relief areas and meeting and event spaces. The scope of work includes the installation of electricity generation equipment at Proctors, interconnection with Center City, as well as connection to an existing hot and chilled water distributed energy plant that serves these facilities, allowing the plant to recapture waste heat from electricity generation to be used to create hot or chilled water.

Location: Schenectady, New York

Amount: $6,000,000 for Construction and project delivery costs.

A copy of the application will be available for review at 432 State Street, Schenectady, NY 12305 during normal business hours as well as online at www.proctors.org/microgrid

All citizens, particularly persons of low- and moderate-income and residents of blighted areas, as well as those affected by the project are encouraged to submit their comments, views and proposals by 9/13/19 to Proctors at the following address:

Proctors
Attn: Microgrid Project
432 State Street
Schenectady, NY 12305

Additional information regarding the availability and use of CDBG-DR funds is available upon request.

Proof of Publication of Public Notice Requesting Public Comment on Submission of Application for Funding

The Application was advertised From 09/03/2019 – 09/10/2019 in the following publications:

- The Daily Gazette
- Proctors Web Site

The following comments were received by [subrecipient]:
